TO: Minerals File

FROM: Tony Gallegos, Reclamation Engineer *ay*

RE: Site Inspection, Interstate Brick Company, Big Cottonwood Mine, M/035/003, Salt Lake County, Utah

Date of Inspection: April 19, 1994  
Time of Inspection: 1310 - 1325  
Conditions: sunny, warm  
Participants: Tony Gallegos, and Travis Jones, DOGM

Purpose of Inspection: To examine the status of the mine site.

This inspection amounted to a brief visit to the site to see if any further reclamation had been performed. The mine site is essentially unchanged. No additional reclamation has been performed since my last inspection.

The new home being built below the north end of the mine site appears to be complete at this time. There is an erosional blow-out beneath the concrete ditch and behind a concrete retaining wall. The wall was built to protect part of the driveway of the new home.

**NOTE:** The Division letter of November 12, 1993, required reclamation of this site be completed no later than **June 1, 1994**.
